From Principal's Desk

Dear Students,

Education is the cornerstone of an empathetic and welfare oriented society. It aims to create intellectually enlightened individuals who are both culturally vibrant and spiritually informed. The true goal of education transcends much beyond the structural and formal system of education. It aims to develop integrity and character among the students.

In our college we aim to create such qualities among our students. Govt College Jhandutta is established in rural and serene surroundings. However, it is equipped with all the modern facilities including Computer lab, Smart classroom, well equipped Library, Career Counseling cell and Research Center. With experienced and dedicated teachers our college aims to help the students to realize their dreams and fulfill their goals in life. I encourage all the students to take advantage of the facilities provided by the college. We also strive to develop all round qualities of our students through various clubs including NSS, Red Ribbon, Rovers & Rangers etc. The students should grab the opportunities provided by such platforms and develop a dynamic character and vibrant personality. These activities focus on developing leadership quality, communication and presentation skills whereby students are well equipped and ever ready to take plunge into the highly competitive world. This holistic approach helps to develop unique identity, confidence and humanity.

Our focus also remains on the preservation and conservation of environment which remains an area of concern for the entire humanity. Only when we strive to create a difference at individual level, can we initiate global changes.

The entire teaching and non-teaching staff of the college remain dedicated in their efforts to prepare the students for life outside the premises provided by the institution. But the students must remember that it is their hard work and perseverance that will help them in realizing their goals. The world is changing rapidly and we need to evolve accordingly in order to sustain our growth. The college provides congenial atmosphere for personal development and individual growth. However, the same dedication and efforts are needed on part of the students also. I invite the students to take admission in the college and be a constructive part this story of growth and development.
